No, the above listing is updated regularly and is based on the devices tested for which we can guarantee full compatibility; however our products are constantly optimized to offer compatibility with more devices. If you want to report compatibility or incompatibility issues, contact us at support@mykronoz.com

TOP 10

OF THE MOST FREQUENTLY ASKED QUESTIONS

MY ZECIRCLE IS ALREADY CONNECTED TO ANOTHER ACCOUNT, WHAT SHOULD I DO ?

If you don't know the logins of the previous user, please send us (support@mykronoz.com) a screenshot including the D/N number that appears below the error message. This D/N number will allow us to track with which email address your MyKronoz device is connected, and if needed, to unpair it from this account.

[PC / MAC users] The D/N number can be found on the bottom right-side of the Software welcome page

MY ZECIRCLE SHOWS SET UP, WHAT SHOULD I DO?

This message on your device display prompt you to set up the product using ZeCircle mobile application (iOS or Android) and/or PC/MAC software.

HOW DO I USE THE TOUCHSCREEN ?

To interact with ZeCircle touch screen, double tap on the touch-sensitive area. ZeCircle touchscreen only respond to tap gestures in this specific touch-sensitive area. ZeCircle screen turns off when not in use. Double tap the touch area to wake the device.

To ensure ZeCircle is responding accurately to your taps, we recommend using your fingertip and not your nail.

I WOULD LIKE TO USE ANOTHER EMAIL ADDRESS FOR MY ACCOUNT, HOW CAN I DO THAT?

- Open ZeCircle mobile application
- Go into **SETTINGS** > **UNPAIR**
- Then **log out** from your session
- **Sign up** with another email and pair your ZeCircle with this new email account

[PC / MAC users] Open the software, Go to the "Device Manager" tab, click on "Unpair" in the right hand-side of the table. **Log out**, and sign up with another email address

ZECIRCLE SHOWS INCORRECT TIME AND DATE

In order to get the correct time and date on your ZeCircle display, proceed as follows :

- **Pair** and **set up** ZeCircle using a mobile phone: download and install ZeCircle **iOS**, **Android** or **Windows Phone App** on your smartphone, then create an account and follow the instructions on screen. After a successful pairing, time and date will be automatically synchronized.

- **Set up** ZeCircle using a computer: download ZeCircle PC or MAC software from MyKronoz website, install the software on your computer, and follow the instructions on screen

<http://app-zecircle.mykronoz.com/softwareAppDownload>

HOW CAN I UPGRADE MY ZECIRCLE WITH THE LATEST FIRMWARE AVAILABLE?

- Download and install ZeCircle PC or MAC software available on MyKronoz website
- Plug ZeCircle into the USB port of your computer and follow the instructions on screen to upgrade your ZeCircle firmware

If you still experience some problems, try this:

- Make sure you have Wifi / 3G network
- Turn your Bluetooth OFF / ON
- In your Bluetooth settings, Forget or unpair ZeCircle
- Open ZeCircle app, go to Settings > Unpair
- Reset your mobile device
- Go through the pairing process again

WHAT CODE SHOULD I ENTER TO PAIR WITH MY ZECIRCLE ?

No password is required to pair ZeCircle to your mobile phone, you should download the App and follow the instructions given on screen.

I AM STUCK ON THE WELCOME PAGE OF THE SOFTWARE AND MY ZECIRCLE IS NOT DETECTED.

[For PC]

- Make sure the ZeCircle is well positioned on its charging dock and plug to your computer.
- Turn off the bluetooth connections (from your Bluetooth devices list on your smartphone and from your App).
- Unplug and plug the device back in.
- Try again on a different USB port.
- Update the driver on your PC, the driver is usually located in this folder : C:\Mykronoz\ZeCircle\usbdriver
- **Restart your computer.**

[For MAC]

- Make sure the ZeCircle is well positioned on its charging dock and plug to your computer.
- Turn off the bluetooth connections (from your Bluetooth devices list on your smartphone and from your App).
- Unplug and plug the device back in.
- Try again on a different USB port.

Visit our online FAQ or contact us at support@mykronoz.com

ZECIRCLE IS NOT DETECTED BY THE MOBILE APPLICATION?

- In the Bluetooth settings on your mobile phone, forget the ZeCircle
- Open the application, sign in with your user identification, and follow the instructions on the screen to pair your device.

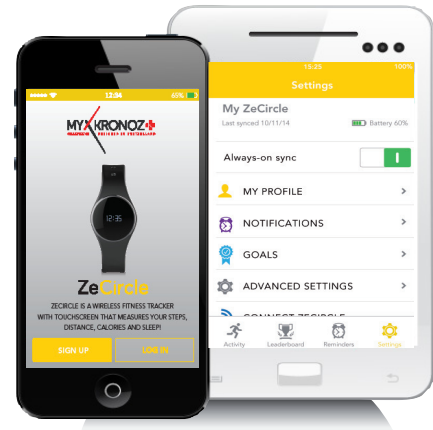

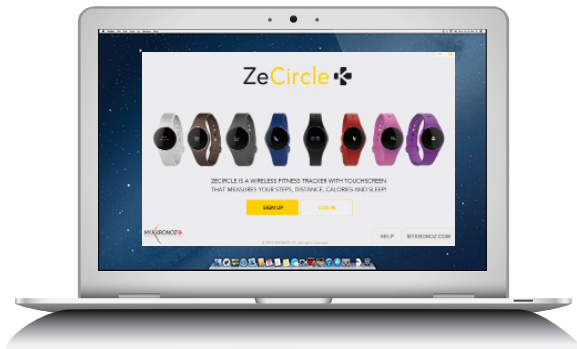

ALL COUNTERS ARE STUCK TO 0, WHAT CAN I DO ?

You need to wear ZeCircle and do about 10-20 steps in order to start the podometer.

If you are still experiencing this issue, we recommend you to do a **RESET** of your watch.

If this issue still occurs even after the **RESET**, you should let the battery discharge completely in order to reboot the accelerometer.

— SET-UP AND PAIRING —

1. FIRST, DO NOT FORGET TO CHARGE ME

Before the first set-up, we recommend you to charge your ZeCircle for about 1h30. Make sure to well align the charging clip posts with the contacts on the back of ZeCircle. Plug the USB cable to a power source. A battery indicator will be displayed on the screen.

2. SET-UP AND PAIRING

You can set-up your ZeCircle either with a **smartphone** or a **computer**. In order to know if your device is compatible or not, please refer to the technical sheet « **Devices I am compatible with** »

Follow the instructions to set up your product

ANY HELP NEEDED?

*You have downloaded and installed our PC or MAC software, however, your device is not recognized and you remain stuck on the Home Page.
Here are our tips:*

- **Switch off the Bluetooth connection** of your device before connecting it to the computer with the USB cable. To switch off the connection, forget the device from the list of available devices from the Bluetooth settings of your mobile phone.
- **Unplug and plug back** in the device until the USB port is available
- If « **unknown driver** » is displayed when plugin the device, it means that the driver installation is not successful. You will have to manually install it. In your settings, click on the USB
- **Restart your computer**
