No, the above listing is updated regularly and is based on the devices tested for which we can guarantee full compatibility; however our products are constantly optimized to offer compatibility with more devices. If you want to report compatibility or incompatibility issues, contact us at support@mykronoz.com

MY ZEBRACELET² IS ALREADY CONNECTED TO ANOTHER ACCOUNT, WHAT SHOULD I DO ?

If you don't know the logins of the previous user, please send us (support@mykronoz.com) a screenshot including the D/N number that appears below the error message. This D/N number will allow us to track with which email address your MyKronoz device is connected, and if needed, to unpair it from this account.

[PC / MAC users] The D/N number can be found on the bottom right-side of the Software welcome page

MY ZEBRACELET² SHOWS SET UP, WHAT SHOULD I DO?

This message on your device display prompt you to set up the product using ZeBracelet2 mobile application (iOS or Android) and/or PC/MAC software.

I CANNOT RECEIVE CALLS …

Please make sure you have paired your device via Bluetooth 2.1 to support voice and audio features:

• Press the RED button to light up the display

• Press the upper left button on your ZeBracelet² to release the Bluetooth connection

• An icon on ZeBracelet² will appear followed by a beep

• Go to your cellphone Bluetooth settings, turn it ON and select ZeBracelet² in the list of available devices

• A phone icon will appear on ZeBracelet² homepage, and the status «Connected» or «Paired» on your mobile device will confirm successful pairing

HOW CAN I UNPAIR ZEBRACELET² FROM MY ACCOUNT / EMAIL ADDRESS?

For this, you need to unpair your device from your current account. Please follow these steps:

• Open ZeBracelet² mobile application
• go into SETTINGS > SET UP > UNPAIR
This operation will unpair your ZeBracelet² from the email address it was initially paired with, and allow you to connect it to another one

[PC / MAC users] Open the software, Go to the "Device Manager" tab, click on "Unpair " in the right hand-side of the table

MY ZEBRACELET² SHOWS INCORRECT TIME, WHAT CAN I DO?

If your ZeBracelet² shows the wrong time and date, please do the following:

• Ensure you have successfully paired the device after downloading and installing ZeBracelet² iOS, Android or Windows Phone App. Create an account and follow the instructions on screen to pair your device.
After a successful pairing, the time and date of your phone will be automatically synchronized.
• Upgrade your device with the latest firmware version by downloading our PC or MAC software available on:

http://app-zebracelet2.mykronoz.com/softwareAppDownload

I TRIED TO SYNC MY DATA BUT IT WAS NOT SUCCESSFUL, WHAT SHOULD I DO?

• Press the syncing button on the top right hand of the mobile app
• Press the RED button on your ZeBracelet² to light up the display
• Make sure ZeBracelet² display in turned on to ensure successful synchronization of data

TIPS:

If you still experience some problems:
• Make sure you have Wifi / 3G network
• Turn your Bluetooth OFF / ON
• In your Bluetooth settings, Forget or unpair ZeBracelet²
• Open ZeBracelet² app, go to Settings > Unpair
• Reset your mobile device
• Go through the pairing process again

I CAN NO LONGER SYNC DATA OR PAIR AFTER FIRMWARE UPGRADE

• Open the app, go to «Settings», tap «set up» and then «unpair»
• Then log out from the app
• Go into the Bluetooth settings of your phone and forget ZeBracelet² BLE and/or ZeBracelet² device(s)

 [Android users] :
• disconnect ZeBracelet² device
• Update ZeBracelet² firmware with the latest version: http://app-zebracelet2.mykronoz.com/softwareAppDownload
• Log into the app, and do the pairing process again

HOW CAN I UPGRADE MY ZEBRACELET² WITH THE LATEST FIRMWARE AVAILABLE?

To upgrade your device with the latest firmware version available, follow these steps:

• download our PC or MAC software available on http://app-zebracelet2.mykronoz.com/softwareAppDownload
• after a successful installation, plug the device into your computer USB port
• Sign up or log in with your existing account
• A pop-up windows will prompt you to upgrade your device, accept and wait a few minutes until the upgrade is completed
• After successful update, unplug your device

This upgrade can last few minutes. Wait until the end of the upgrade and then unplug the device.

NOTIFICATIONS ARE NOT WORKING, WHAT SHOULD I DO?

To enjoy the notification feature, make sure to:
• Upgrade your product with the latest firmware version available. Download our PC or MAC software available on http://app-zebracelet2.mykronoz.com/softwareAppDownload and follow the instructions.
• Download and install the latest mobile phone application available on the App Store or the Google Play Store.
• Select the type of notifications you want to receive in the «notification» section of your Zebracelet² application.

[iOS users] In the settings of your iOS device, press "Notification" and select the type of notifications you want to receive on your ZeBracelet². Enable the notifications in the "Notification center".

I HAVE INSTALLED ZEBRACELET² PC SOFTWARE BUT I AM STUCK ON THE WELCOME PAGE.

• If you notice a pop-up message saying «can not recognize the device» at the bottom right corner, it is possible that the port is already used by another one before. It will takes minutes to be released. We suggest to unplug and plug ZeBracelet² again.
• If «unknown driver» is displayed at the bottom right corner, it means the driver installation is unsuccessful. New PC version will help you to install it if you currently can't install it manually.
• If your ZeBracelet² is not recognized and there is no message pop up, it means that your ZeBracelet² is not recognized by your USB port. We suggest to remove other USB device first, then plug your ZeBracelet² again.

We also highly recommend to follow these steps:
• Make sure the charging clip is well positioned on the charging terminals on the back of ZeBracelet²
• Update the driver on your PC
• Try again on a different USB port
• Make sure you have disconnected all the bluetooth connections (from your Bluetooth devices list on your smartphone and from your App)

Download ZeBracelet^2 software for PC or Mac, available on **MyKronoz website**

Once the software has been installed, plug your ZeBracelet^2 with the USB cable

Sign up if you are a new member or **Log in** with your existing account. Follow the instructions to set up your product

ANY HELP NEEDED?

You have downloaded and installed our PC or MAC software, however, your device is not recognized and you remain stuck on the Home Page. Here are our tips:

• **Switch off the Bluetooth connection** of your device before connecting it to the computer with the USB cable. To switch off the connection, forget the device from the list of available devices from the Bluetooth settings of your mobile phone.

• **Unplug and plug back** in the device until the USB port is available

• If « unknown driver » is displayed when plugin the device, it means that the driver installation is not successful. You will have to manually install it. In your settings, click on the USB driver tab and select the driver that corresponds to your device

• **Restart your computeur**
