KEY FACTS

IN A FEW WORDS WHAT CAN I DO ?

COMMUNICATION

- I notify you of incoming SMS, emails and social media activity
- I vibrate and display caller's contact and/or number
- I notify you of the number of missed calls
- Set your daily goals and reminders

HEALTH

- I track your steps
- I measure distance travelled
- I calculate calories burned
- I analyze your sleep quality
- I warn you when you are inactive
- Set up your daily goals

AND I WORK

With a Smartphone

Bluetooth wireless setup and syncing

- Compatibility iOS : iPhone 4s,5,5c,5s,6, 6 Plus, iPad 3rd Gen, iPad Mini, iPod Touch 5th gen. iOS 7+
- Android : Select Android 4.3+ devices
- Windows Phone : Select Windows Phone 8+ devices
- Internet connection required

WITH... ?

With a computer

USB-cable setup and syncing

- MAC/PC software available on:
<http://www.mykronoz.com/support/>
- PC compatibility: Windows7,8,XP
- MAC : MAC OS X 10.8+
- Internet connection required

Great, Mykronoz has thought of all end-users who may not have the latest generation of smartphone and thus, designed specific Windows PC and MAC software to allow them to setup and use Zefit² without the need of a mobile device.

No, the above listing is updated regularly and is based on the devices tested for which we can guarantee full compatibility; however our products are constantly optimized to offer compatibility with more devices. If you want to report compatibility or incompatibility issues, contact us at support@mykronoz.com

TOP 10

OF THE MOST FREQUENTLY ASKED QUESTIONS

MY ZEFIT² IS ALREADY CONNECTED TO ANOTHER ACCOUNT, WHAT SHOULD I DO ?

If you don't know the logins of the previous user, please send us (support@mykronoz.com) a screenshot including the D/N number that appears below the error message. This D/N number will allow us to track with which email address your MyKronoz device is connected, and if needed, to unpair it from this account.

[PC / MAC users] The D/N number can be found on the bottom right-side of the Software welcome page

MY ZEFIT² SHOWS SET UP, WHAT SHOULD I DO?

This message on your device display prompts you to set up the product using ZeFit² mobile application (iOS or Android) and/or PC/MAC software.

HOW TO USE THE ZEFIT² TOUCHSCREEN?

To interact with ZeFit² touchscreen, double tap on the touch-sensitive area.

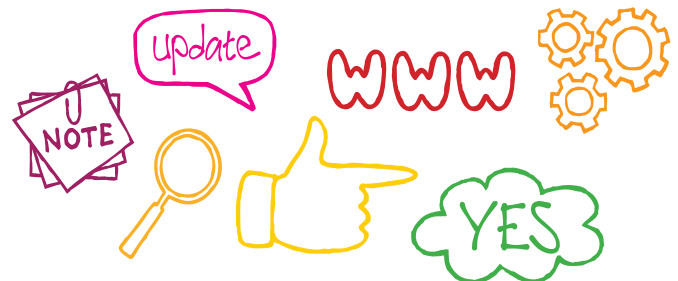

ZeFit² touchscreen only responds to tap gestures in this specific touch-sensitive area. ZeFit² screen turns off when not in use. Double tap the touch area to wake the device. To ensure ZeFit² is responding accurately to your taps, we recommend using your fingertip and not your nail.

To move between screens, swipe left or right.

I WOULD LIKE TO USE ANOTHER EMAIL ADDRESS FOR MY ACCOUNT, HOW CAN I DO THAT?

- Open ZeFit² mobile application
- Go into **SETTINGS** > **UNPAIR**
- Then **log out** from your session
- **Sign up** with another email and pair your ZeFit² with this new email account

[PC / MAC users] Open the software, Go to the "Device Manager" tab, click on "Unpair" in the right hand-side of the table. **Log out**, and sign up with another email address

ZEFIT² SHOWS INCORRECT TIME AND DATE

In order to get the correct time and date on your ZeFit² display, proceed as follows :

- **Pair and set up** ZeFit² using a mobile phone: download and install ZeFit² **iOS**, **Android** or **Windows Phone App** on your smartphone, then create an account and follow the instructions on screen. After a successful pairing, time and date will be automatically synchronized.
- **Set up** ZeFit² using a computer: download ZeFit² **PC** or **MAC** software from MyKronoz website, install the software on your computer, and follow the instructions on screen

<http://app-zefit2.mykronoz.com/softwareAppDownload>

HOW CAN I UPGRADE MY ZEFIT² WITH THE LATEST FIRMWARE AVAILABLE?

- Download and install ZeFit² PC or MAC software available on MyKronoz website
- Plug ZeFit² into the USB port of your computer and follow the instructions on screen to upgrade your ZeFit² firmware
- Update process will take a few minutes, wait and unplug the device after the update has been successfully performed.

WHAT CODE SHOULD I ENTER TO PAIR WITH MY ZEFIT² ?

No password is required to pair ZeFit² to your mobile phone, you should download the App and follow the instructions given on screen.

ZEFIT² IS NOT DETECTED BY THE MOBILE APPLICATION?

- In the Bluetooth settings on your mobile phone, forget the ZeFit²
- Open the application, sign in with your user identification, and follow the instructions on the screen to pair your device.

ALL COUNTERS ARE STUCK TO 0, WHAT CAN I DO ?

You need to wear ZeFit² and do about 10-20 steps in order to start the podometer.

If you are still experiencing this issue, we recommend you to do a **RESET** of your watch.

If this issue still occurs even after the **RESET**, you should let the battery discharge completely in order to reboot the accelerometer.

I AM STUCK ON THE WELCOME PAGE OF THE SOFTWARE AND MY ZEFIT² IS NOT DETECTED.

[For PC]

- Make sure the ZeFit² is well positioned on its charging dock and plug to your computer.
- Turn off the bluetooth connections (from your Bluetooth devices list on your smartphone and from your App).
- Unplug and plug the device back in.
- Try again on a different USB port.
- Update the driver on your PC, the driver is usually located in this folder : C:\Mykronoz\ZeFit²\usbdriver
- **Restart your computer.**

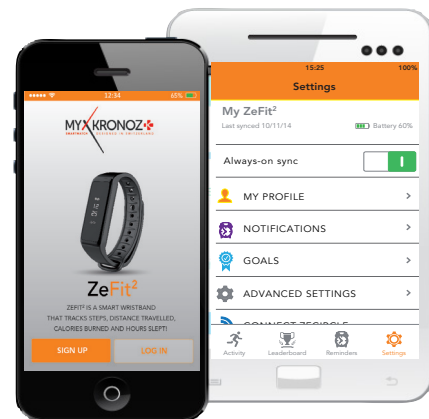

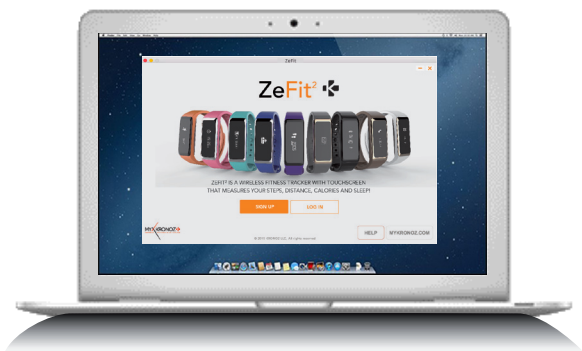

[For MAC]

- Make sure the ZeFit² is well positioned on its charging dock and plug to your computer.
- Turn off the bluetooth connections (from your Bluetooth devices list on your smartphone and from your App).
- Unplug and plug the device back in.
- Try again on a different USB port.

Follow the instructions to set up your product

ANY HELP NEEDED?

*You have downloaded and installed our PC or MAC software, however, your device is not recognized and you remain stuck on the Home Page.
Here are our tips:*

- **Switch off the Bluetooth connection** of your device before connecting it to the computer with the USB cable. To switch off the connection, forget the device from the list of available devices from the Bluetooth settings of your mobile phone.
- **Unplug and plug back** in the device until the USB port is available
- If « **unknown driver** » is displayed when plugin the device, it means that the driver installation is not successful. You will have to manually install it. In your settings, click on the USB
- **Restart your computer**
