TOP 10

OF THE MOST FREQUENTLY ASKED QUESTIONS

MY ZEFIT² PULSE IS ALREADY CONNECTED TO ANOTHER ACCOUNT, WHAT SHOULD I DO ?

If you don't know the logins of the previous user, please send us (support@mykronoz.com) a screenshot including the D/N number that appears below the error message. This D/N number will allow us to track with which email address your MyKronoz device is connected, and if needed, to unpair it from this account.

[PC / MAC users] The D/N number can be found on the bottom right-side of the Software welcome page

MY ZEFIT² PULSE SHOWS SET UP, WHAT SHOULD I DO?

This message on your device display prompts you to set up the product using ZeFit² Pulse mobile application (iOS or Android) and/or PC/MAC software.

HOW TO USE THE ZEFIT² PULSE TOUCHSCREEN?

To interact with ZeFit² Pulse touchscreen, double tap on the touch-sensitive area.

ZeFit² Pulse touchscreen only responds to tap gestures in this specific touch-sensitive area.

ZeFit² Pulse screen turns off when not in use. Double tap the touch area to wake the device.

To ensure ZeFit² Pulse is responding accurately to your taps, we recommend using your fingertip and not your nail.

To move between screens, swipe left or right.

I WOULD LIKE TO USE ANOTHER EMAIL ADDRESS FOR MY ACCOUNT, HOW CAN I DO THAT?

- Open ZeFit² mobile application
- Go into **SETTINGS** > **UNPAIR**
- Then **log out** from your session
- **Sign up** with another email and pair your ZeFit² Pulse with this new email account

[PC / MAC users] Open the software, Go to the "Device Manager" tab, click on "Unpair" in the right hand-side of the table. **Log out**, and sign up with another email address

ZEFIT² PULSE SHOWS INCORRECT TIME AND DATE

In order to get the correct time and date on your ZeFit² Pulse display, proceed as follows :

- **Pair** and **set up** ZeFit² Pulse using a mobile phone: download and install ZeFit² iOS, Android or Windows Phone App on your smartphone, then create an account and follow the instructions on screen. After a successful pairing, time and date will be automatically synchronized.

- **Set up** ZeFit² Pulse using a computer: download ZeFit² Pulse PC or MAC software from MyKronoz website, install the software on your computer, and follow the instructions on screen

<http://app-zefit2Pulse.mykronoz.com/softwareAppDownload>

HOW CAN I UPGRADE MY ZEFIT² PULSE WITH THE LATEST FIRMWARE AVAILABLE?

[Update via PC/MAC]

Step 1: Make sure that you have disabled the bluetooth connection between the ZeFit² Pulse and your phone.

Step 2: Download and install ZeFit² Pulse PC or MAC software available on MyKronoz website

Step 3: Plug ZeFit² Pulse into the USB port of your computer and follow the instructions on screen to upgrade your ZeFit² Pulse firmware

[Update with your mobile phone (OTA)]

ZeFit² Pulse feature OTA technology (Over The Air) that allows you to do the firmware upgrade directly with your mobile phone.

Once a update is available, you will receive a warning on the application. You just need to accept the update in the settings of the App, the update will then proceed automatically.

WHAT CODE SHOULD I ENTER TO PAIR WITH MY ZEFIT² PULSE ?

No password is required to pair ZeFit² Pulse to your mobile phone, you should download the App and follow the instructions given on screen.

ZEFIT² PULSE IS NOT DETECTED BY THE MOBILE APPLICATION?

- In the Bluetooth settings on your mobile phone, forget the ZeFit² Pulse
- Open the application, sign in with your user identification, and follow the instructions on the screen to pair your device.

ALL COUNTERS ARE STUCK TO 0, WHAT CAN I DO ?

You need to wear ZeFit² Pulse and do about 10-20 steps in order to start the podometer.

If you are still experiencing this issue, we recommend you to do a **RESET** of your watch.

If this issue still occurs even after the **RESET**, you should let the battery discharge completely in order to reboot the accelerometer.

I AM STUCK ON THE WELCOME PAGE OF THE SOFTWARE AND MY ZEFIT² PULSE IS NOT DETECTED.

[For PC]

- Make sure the ZeFit² Pulse is well positioned on its charging dock and plug to your computer.
- Turn off the bluetooth connections (from your Bluetooth devices list on your smartphone and from your App).
- Unplug and plug the device back in.
- Try again on a different USB port.
- Update the driver on your PC, the driver is usually located in this folder : C:\Mykronoz\ZeFit²Pulse\usbdriver
- **Restart your computer.**

[For MAC]

- Make sure the ZeFit² Pulse is well positioned on its charging dock and plug to your computer.
- Turn off the bluetooth connections (from your Bluetooth devices list on your smartphone and from your App).
- Unplug and plug the device back in.
- Try again on a different USB port.

Follow the instructions to set up your product

ANY HELP NEEDED?

You have downloaded and installed our PC or MAC software, however, your device is not recognized and you remain stuck on the Home Page.

Here are our tips:

- **Switch off the Bluetooth connection** of your device before connecting it to the computer with the USB cable. To switch off the connection, forget the device from the list of available devices from the Bluetooth settings of your mobile phone.
- **Unplug and plug back** in the device until the USB port is available
- If « **unknown driver** » is displayed when plugin the device, it means that the driver installation is not successful. You will have to manually install it. In your settings, click on the USB
- **Restart your computer**
