IN A FEW WORDS, WHAT CAN I DO ?

COMMUNICATION

- I tell time
- I ring and vibrate on incoming calls
- I display the incoming call number or name
- Answer calls directly from your wrist
- Use the voice control feature (Siri, S Voice, Google Now)
- I notify you of incoming SMS, emails and social media activity
- I display the content of your three last SMS
- Check the list of your five last missed calls

HEALTH

- I track your steps
- I measure the distances traveled
- I calculate your calories burned
- I analyze your sleep quality
- Set up your daily goals
- Set vibrating reminders
- Follow your performance and progress

AND I WORK

With a Smartphone

Bluetooth wireless setup and syncing

- Compatibility iOS : iPhone 4s,5,5c,5s,6, 6 Plus, iPad 3rd Gen, iPad Mini, iPod Touch 5th gen.
- Android: Select Android 2.3+ devices
- Windows Phone: Select Windows Phone 8.1+ devices
- Internet connection required

WITH... ?

With a laptop

USB-cable setup and syncing

- MAC/PC software available on: <http://www.mykronoz.com/support/>
- PC compatibility: Windows7,8,XP
- MAC : MAC OS X 10.8+
- Internet connection required

Great, MyKronoz has thought of all end-users who may not have the latest generation of smartphone and thus, designed specific Windows PC and MAC software to allow them to setup and use Zewatch² without the need of a mobile device.

TOP 10

OF THE MOST FREQUENTLY ASKED QUESTIONS

MY ZEWATCH² IS ALREADY CONNECTED TO ANOTHER ACCOUNT, WHAT CAN I DO?

For privacy and security reasons, please send us a screenshot including the D/N number that appears below the error message.

This D/N number will allow us to track with which email address your **MyKronoz device** is connected, and if needed, to unpair it from this account.

[PC/ MAC users] The D/N number can be found on the bottom right side of the software welcome page

I WOULD LIKE TO USE ANOTHER ACCOUNT, HOW CAN I DO THAT?

- open ZeWatch² mobile application,
- go into **SETTINGS > SET UP > UNPAIR**
- then log out from your session

[MAC or PC users] Open the software, Go to the "Device Manager" tab, click on "Unpair" in the right hand-side of the table. Log out, and sign up with another email address.

SET UP MESSAGE POPS UP ON MY ZEWATCH²

This message on your device display prompts you to set up the product using ZeWatch² mobile application (iOS, Android or Windows Phone) and/or PC/MAC software.

I CANNOT RECEIVE CALLS ...

Please make sure you have paired your device via Bluetooth 2.1 to support voice and audio features:

- Press the **RED** button to light up the display
- Press the upper left button on your ZeWatch² to release the Bluetooth connection
- An icon on ZeWatch² will appear followed by a beep
- Go to your cellphone Bluetooth settings, turn it ON and select ZeWatch² in the list of available devices
- A phone icon will appear on ZeWatch² homepage, and the status «**Connected**» or «**Paired**» on your mobile device will confirm successful pairing

ZEWATCH² SHOWS INCORRECT TIME AND DATE

If your ZeWatch² shows the wrong time and date, please do the following:

- Ensure you have successfully paired the device after downloading and installing ZeWatch² iOS or Android App.

Create an account and follow the instructions on screen to pair your device. After a successful pairing, the time and date of your phone will be automatically synchronized.

- Upgrade your device with the latest firmware version by downloading our PC or MAC software available on:
<http://app-zewatch2.mykronoz.com/softwareAppDownload>

I TRIED TO SYNC MY DATA BUT IT WAS NOT SUCCESSFUL

- Press the syncing button on the top right hand of the mobile app
- Press the **RED button** on your ZeWatch² to light up the display
- Make sure ZeWatch² display is turned on to ensure successful synchronization of data

TIPS:

If you still experience some problems:

- Make sure you have Wifi / 3g network
- Turn your Bluetooth OFF / ON
- In your Bluetooth settings, Forget or unpair ZeWatch²
- Open ZeWatch app, go to Settings > Unpair
- Reset your mobile device
- Go through the pairing process again

HOW CAN I UPGRADE MY ZEWATCH² WITH THE LATEST FIRMWARE AVAILABLE?

To upgrade your device with the latest firmware version available, follow these steps:

- Download our PC or MAC software available on <http://app-zewatch2.mykronoz.com/softwareAppDownload>
- After a successful installation, plug the device into your computer USB port
- **Sign up** or **log in** with your existing account
- A pop-up window will prompt you to upgrade your device, accept and wait a few minutes until the upgrade is completed
- After successful update, unplug your device

I CANNOT PAIR OR SYNC DATA AFTER IOS/ANDROID APP UPDATE

- Open the app, go to «Settings», tap «set up» and then «unpair»
- Then log out from the app
- Go into the Bluetooth settings of your phone and forget ZeWatch² BLE and/or ZeWatch² device(s)

[Android users: «unpair» ZeWatch² device]

- Upgrade your device with the latest firmware version available, by downloading our PC or MAC software available on <http://app-zewatch2.mykronoz.com/softwareAppDownload>
- After a successful firmware upgrade, log into the app, and do the pairing process again

NOTIFICATIONS ARE NOT WORKING, WHAT SHOULD I DO?

To enjoy the notification feature, make sure to:

- Upgrade your product with the latest firmware version available. Download our PC or MAC software available on <http://app-zewatch2.mykronoz.com/softwareAppDownload> and follow the instructions.
- Download and install the latest mobile phone application available on the [App Store](#) or the [Google Play Store](#).
- Select the type of notifications you want to receive in the «notification» section of your Zewatch² application.

[iOS Users] In the settings of your iOS device, press “Notification” and select the type of notifications you want to receive on your ZeWatch².

Enable the notifications in the “Notification center”.

I HAVE INSTALLED ZEWATCH² PC SOFTWARE BUT I AM STUCK ON THE WELCOME PAGE.

- Switch off the Bluetooth connection of your device before connecting it to the computer with the USB cable. To switch off the connection, forget the device from the list of available devices from the Bluetooth parameters of your mobile phone.
- **Unplug** and **plug back** in the device until the USB port is available
- If « unknown driver » is displayed when plugging the device, it means that the driver installation is not successful. You will have to manually install it. From the **set up parameters**, click on the rubric USB driver and select the driver that corresponds to your device

Restart your computer

SET-UP AND PAIRING

1. FIRST, DO NOT FORGET TO CHARGE ME

Before the first set-up, we recommend you to charge your ZeWatch² for about 1h30. Make sure to well align the charging clip posts with the contacts on the back of ZeWatch². Plug the USB cable to a power source. A battery indicator will be displayed on the screen.

2. SET-UP AND PAIRING

You can set-up your ZeWatch² either with a [smartphone](#) or a [computer](#). In order to know if your device is compatible or not, please refer to the technical sheet « [Devices I am compatible with](#) »

Set-up with a Smartphone

iOS users

STEP 1 PAIRING WITH MOBILE APP

Download [ZeWatch²](#) App for iOS from the App store

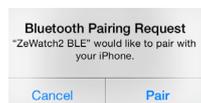

Sign up if you are a new member or **Log in** with your existing account

Enable Bluetooth on your iOS device

Press ZeWatch² **RED** button to turn on its display and initiate pairing

Accept pairing request with ZeWatch² BLE

This step allows you to synchronize the time, date, activity and sleep data, reminders and notifications.

STEP 2 MANUAL PAIRING

Press **RED** button to turn on ZeWatch² screen

Hold and press the upper left button to start the Bluetooth connection

A « phone » icon will be displayed on ZeWatch² followed by a beep.

Go to your IOS device's Bluetooth settings, make sure the connection is activated, and select ZeWatch² in the list of devices

A **paired icon** will be displayed and a beep will sound to confirm successful pairing

This step allows you to take or make calls from your ZeWatch².

Android users

PAIRING WITH MOBILE APP

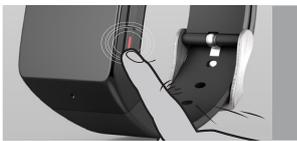

Download [ZeWatch²](#) App for iOS from Google Play Store

SIGN UP

LOG IN

Sign up if you are a new member or **Log in** with your existing account

Press **RED button** to turn on ZeWatch² screen

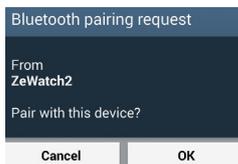

Hold and press the **upper left button** to start the Bluetooth connection

A « **phone** » icon will be displayed on ZeWatch² followed by a beep.

Go to your Android device's Bluetooth settings, make sure the connection is activated, and select ZeWatch² in the list of devices

Accept the pairing request

A **paired icon** will be displayed and a beep will sound to confirm successful pairing

This step allows you to synchronize the time, date, activity and sleep data and reminders.

Windows Phone users

PAIRING WITH MOBILE APP

Download [ZeWatch² App](#) for Windows Phone from the Windows Phone store

Sign up if you are a new member or **Log in** with your existing account

Press **RED button** to turn on ZeWatch² screen

Hold and press the **upper left button** to start the Bluetooth connection

A « **phone** » icon will be displayed on ZeWatch² followed by a beep.

Go to your Windows Phone device's Bluetooth settings, make sure the connection is activated, and select ZeWatch² in the list of devices

A **paired icon** will be displayed and a beep will sound to confirm successful pairing

This step allows you to synchronize the time, date, activity and sleep data and reminders.

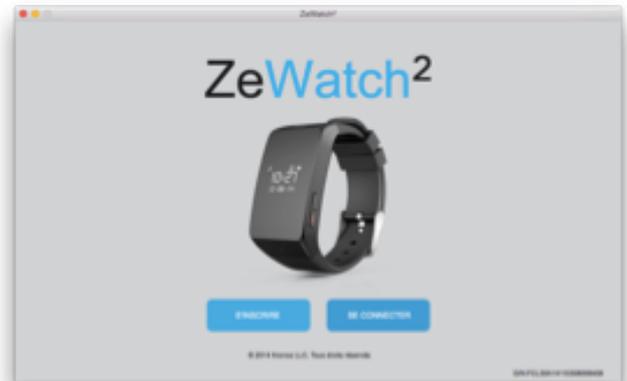

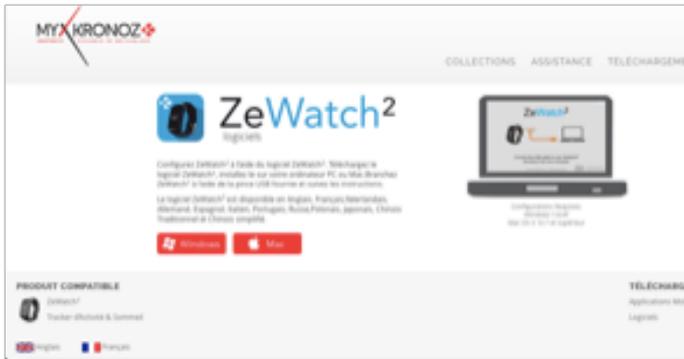

Set-up with a Computer

Windows

Windows PC or Mac users

Mac

Download ZeWatch² software for PC or Mac, available on [MyKronoz website](#)

Once the software has been installed, plug your ZeWatch² with the USB cable

Sign up if you are a new member or **Log in** with your existing account. Follow the instructions to set up your product

ANY HELP NEEDED?

You have downloaded and installed our PC or MAC software, however, your device is not recognized and you remain stuck on the Home Page. Here are our tips:

- Switch off the **Bluetooth connection** of your device before connecting it to the computer with the USB cable. To switch off the connection, forget the device from the list of available devices from the Bluetooth settings of your mobile phone.
- **Unplug and plug back** in the device until the USB port is available
- If « **unknown driver** » is displayed when plugin the device, it means that the driver installation is not successful. You will have to manually install it. In your settings, click on the USB driver tab and select the driver that corresponds to your device
- **Restart your computer**
